## **Learning Objectives for Participants**

At the conclusion of this OMInar, the participant should be better able to:

- 1. Review diagnosis and treatment of simple and complex congenital heart defects.
- 2. Discuss the pathophysiology of single ventricle heart defects, management and long term prognosis.
- 3. Assess rhythm disorders in childhood and therapeutic options.
- 4. Classify congenital heart disease in the foetus, including prenatal treatment and counselling of the parents.
- 5. Recognise signs and symptoms of acute and chronic heart failure in children, adolescents and young adults.
- 6. Cope with cardiac emergencies in the young.

## **ACCME Accreditation Statement**

Children's Hospital of Philadelphia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

## **AMA Credit Designation Statement**

Children's Hospital of Philadelphia designates this live activity for a maximum of 10.00 AMA PRA Category 1 Credits™.

Physicians should only claim credit commensurate with the extent of their participation in the activity.
