

OPEN MEDICAL INSTITUTE

SALZBURG INSTITUT PASTEUR SEMINAR
GLOBAL HEALTH: VECTOR-BORNE DISEASES
Tuesday 3 September – Sunday 8 September 2019
Schloss Arenberg, Salzburg, Austria

Course Director: Anna-Bella Failloux

SPEAKERS AND TOPICS:

Stephanie Blandin

Institut de Biologie Moleculaire et Cellulaire
Strasbourg
France

- Malaria: Transmission and Mosquito Immune Responses

Sarah Bonnet

National Institute for Agricultural Research
Maisons-Alfort
France

- Ticks and Pathogen Transmission

Simon Cauchemez

Institut Pasteur
Paris
France

- Conference: Mathematical Modelling in the Fight Against Infectious Diseases

Mawlouth Diallo

Institut Pasteur of Dakar
Dakar
Senegal

- Conference: Importance of Field Studies in Understanding Emergences

Anna-Bella Failloux

Institut Pasteur

Paris

France

- Medical Entomology and Vectorial Transmission
- Arthropod-Borne Viruses: Dengue, Chikungunya, Zika...

Sandra Junglen

University of Berlin

Berlin

Germany

- Conference: Evolutionary and Ecological Insights into the Emergence of Arthropod-Borne Viruses

Geortgette Kluiters

University of Liverpool

Liverpool

United Kingdom

- Culicoides: Blue Tongue, Schmallenberg and Others

Steven Sinkins

University of Glasgow

Glasgow

United Kingdom

- Mosquito Microbiome, Wolbachia and Transmission

Willem Takken

Wageningen University and Research Centre

Laboratory of Entomology

Wageningen

The Netherlands

- Conference: The History of Malaria Control

Petr Volf

Charles University

Prague

Czech Republic

- Sandflies as Vectors of Pathogens

John Vontas

Institute Molecular Biology Biotechnology

Heraklion, Crete

Greece

- Resistance to Insecticides

Additional Sessions:

- Round Table: Globalization/ Climate Change and Vector-Borne Diseases
- Round Table: Predict Emergences of Vector-Borne Diseases
- Round Table: How to Control Vector-Borne Diseases: Vaccination or Vector Control?
- Round Table: From the Field to the Laboratory
- Final Discussion & Wrap-up
