

**OMI MEX INSTITUT PASTEUR SEMINAR
GLOBAL HEALTH: VECTOR-BORNE DISEASES
Monday, June 13 – Wednesday June 15, 2022**

Course Director: Anna-Bella Failloux, PhD

SPEAKERS AND TOPICS:**Anna-Bella Failloux, PhD**

*Professor of Medical Entomology
Institut Pasteur
Arboviruses and Insect Vectors Unit
Paris
France*

- Vector-Borne Diseases
- Dengue Remains a Threat
- Chikungunya and Zika Conquered America
- Yellow, An Old Disease in Re-Emergence
- Round Table: Globalization, Climate Change and Vector-Borne Diseases
- Round Table: Protecting Biodiversity to Prevent New Emerging Infectious Diseases
- Round Table: Vaccination and/or Vector Control?

Stephanie Blandin, PhD

*Research Scientist & Director of Inserm Lab “Mosquito Immune Responses”
Inserm U1257/CNRS UPR9022
Strasbourg
France*

- Round Table: Globalization, Climate Change and Vector-Borne Diseases
- History of Malaria
- Malaria Transmission
- Genetically Modified Mosquitoes
- Round Table: Protecting Biodiversity to Prevent New Emerging Infectious Diseases
- Round Table: Vaccination and/or Vector Control?

Claudio R. Lazzari, ScD, FRES

*Institut de Recherche sur la Biologie de l'Insecte
UMR 7261 CNRS - Université de Tours
Faculté des Sciences et Techniques
Tours
France*

- Round Table: Globalization, Climate Change and Vector-Borne Diseases
- A Re-Emerging Parasite, Chagas Disease
- Treatments of Chagas Disease
- Round Table: Protecting Biodiversity to Prevent New Emerging Infectious Diseases
- Round Table: Vaccination and/or Vector Control?

Luciano A. Moreira, PhD

*Public Health Researcher
Coordinator of the World Mosquito Program, Brazil
Belo Horizonte
Brazil*

- Round Table: Globalization, Climate Change and Vector-Borne Diseases
- Round Table: Protecting Biodiversity to Prevent New Emerging Infectious Diseases
- History of Vector Control in America
- Innovative Tools to Control Vector-Borne Diseases
- Round Table: Vaccination and/or Vector Control?
