FACULTY BOOKLET

PUBLIC HEALTH LAW SEMINAR IN SALZBURG

June 12-18, 2022

A Global Educational Initiative by the American Austrian Foundation
Wolfgang Aulitzky, MD is the Medical Director of the American Austrian Foundation. He is Associate Dean for International Medicine and Distance Learning, Adjunct Prof. of Clinical Urology and Adjunct Prof. of Clinical Reproductive Medicine at the Weill Medical College of Cornell University/New York Presbyterian Hospital. In 2016, he was appointed Adjunct Professor of Pediatrics in the Associated Faculty of the Perelman School of Medicine at the Children’s Hospital of Philadelphia. He is also Associate Prof. of Urology at the Medical University of Innsbruck and Visiting Professor at the Medical University of Vienna. Amongst others he is a member of the American, German and Austrian Societies of Urology and was awarded the Zuckerkandlpreis of the Austrian Society of Urology in 1989. In 1995 he received the Silver Medal, in 2007 the Golden Medal for Merits to the Republic of Austria and in 2014 the cross of honor of the Land Salzburg. As Director of the Medical Program of the American Austrian Foundation he has initiated the Open Medical Institute, a scientific and educational collaboration of Weill Cornell and the New York Presbyterian Hospital, the Children Hospital of Philadelphia, Duke University, Columbia University, the Cleveland Clinic and leading hospitals in Austria. Dr. Aulitzky earned his medical degree at the University of Innsbruck in 1977, was a research associate at the University of Uppsala, Sweden and the Rockefeller University, New York. He received his training as an urologist at the University of Innsbruck and the General Hospital of Salzburg. He is the author of more than 140 publications on Urology, Andrology and Health Care issues and is co-author of books on basic and clinical urology/andrology.
Katarzyna (Kasia) Czabanowska, MA, PhD  
(Course Director)

Professor of Public Health Leadership and Workforce Development  
Department of International Health  
Care and Public Health Research Institute (CAPHRI)  
FHML  
Maastricht University  
P.O. Box 616  
6200 MD Maastricht  
The Netherlands

Phone: +31-433-881-592  
Email: kasia.czabanowska@maastrichtuniversity.nl

Katarzyna (Kasia) Czabanowska, MA, PhD is a full Professor of Public Health Leadership and Workforce Development at the International Health Department, Maastricht University, the Netherlands, and Honorary Member of the UK Faculty of Public Health. She directs Governance and Leadership in European Public Health programme, published around 200 scientific articles in peer-reviewed journals. She is the Past President of the Association of the Schools of Public Health in the European region (ASPHER), an academic Board Member of the Studio Europa at Maastricht University, visiting professor at the Institute of Public Health Jagiellonian University, Krakow, Poland, adjunct professor at the Richard Fairbanks School of Public Health, Indiana University, US. She serves as a WHO expert in public health leadership, public health workforce development and planning and public health systems.
Scott Burris, JD (Co-Course Director)

Associate Professor
Professor of Law and Public Health
Director
Center for Public Health Law Research
Temple University
1719 N. Broad Street
Philadelphia, PA 19122
USA

Phone: +1-215-204-6575
+1-215-870-9415
Email: scott.burris@temple.edu

Scott Burris, JD is a Professor of Law and Public Health at Temple University, where he directs the Center for Public Health Law Research. His work focuses on how law influences public health, and what interventions can make laws and law enforcement practices healthier in their effects. He is the author of over 200 books, book chapters, articles and reports on issues including urban health, HIV/AIDS, research ethics, and the health effects of criminal law. His work has been supported by organizations including the Open Society Institute, the National Institutes of Health, the Bill and Melinda Gates Foundation, the UK Department for International Development, and the CDC. He has served as a consultant to numerous U.S. and international organizations including WHO, UNODC and UNDP. He has been a visiting scholar at RegNet at the Australian National University, and a Fulbright Fellow at the University of Cape Town Law School. In 2014, he was the recipient of the American Public Health Law Association Health Law Section Lifetime Achievement Award. Professor Burris is a graduate of Washington University in St. Louis (A.B.) and Yale Law School (J.D.). Burris has done extensive public health law development work for the Robert Wood Johnson Foundation. He founded and directed the foundation’s Public Health Law Research Program, a $20 million program that funded over 70 empirical research grants between 2009 and 2016. He was the founding director of the Policies for Action research program and directed a research hub on housing for the program. He also leads the Foundation’s Policy Surveillance Program, which maintains LawAtlas.org, a hub for publishing legal data and training researchers in policy surveillance techniques. His team works closely with the CDC’s Public Health Law Program to expand the field of legal epidemiology. Burris is the premier methodologist in the emerging field of legal epidemiology. With Alex Wagenaar, he is the editor of Public Health Law Research: Theory and Methods (Wiley 2013). His most recent book is The New Public Health Law: A Transdisciplinary Approach to Practice and Advocacy, published by Oxford University Press (2018).
Suzanne (Sue) Babich, DrPH, MS, RD

Associate Dean of Global Health
Professor of Health Policy and Management
Director, Doctoral Program in Global Health Leadership
Indiana University
Richard M. Fairbanks School of Public Health
Health Sciences Building (RG)
1050 Wishard Blvd. Floor 6
Indianapolis, IN 46202-2872
USA

Phone: +1-317-274-3850
Fax: +1-317-274-3443
Email: smbabich@iu.edu

Suzanne (Sue) Babich, DrPH, MS, RD is Associate Dean of Global Health, Professor and Acting Chair of the Department of Global Health at the Indiana University Richard M. Fairbanks School of Public Health in Indianapolis, Indiana, USA. She joined IU in 2015 after 14 years on the faculty of the Department of Health Policy and Management and Department of Nutrition at the Gillings School of Global Public Health, University of North Carolina at Chapel Hill, USA. Social justice and global health equity are her lifelong commitments. She has worked in global health and international higher education for more than 20 years, following 20 years in nutrition practice and health journalism. She has a special interest in international, interdisciplinary education and applications of technology for progressive approaches to public health workforce education and leadership development. She directs the Doctoral Program in Global Health Leadership, a unique professional distance doctoral degree program for mid- to senior-level health practitioners working full-time around the world. An award-winning educator, Dr. Babich has extensive experience in distance education and experiential teaching and learning approaches. She collaborates closely with colleagues around the world and holds faculty positions in the School for Public Health and Primary Care, Maastricht University, The Netherlands and l'Ecole des Hautes Etudes en Santé Publique (EHESP), the French national school of public health, Paris, and Rennes. She is Chair of the Board of Accreditation, European Agency for Public Health Education Accreditation (APHEA) and served for ten years on the US-based Council on Accreditation of Health Management Education (CAHME). She holds a doctorate in public health from the Department of Health Policy and Management at the Gillings School of Global Public Health, University of North Carolina at Chapel Hill. She holds BS and MS degrees in human nutrition and maintains credentials as a registered dietitian. A professional science writer and former newspaper columnist, she is (as Suzanne Havala Hobbs) the author of 14 consumer diet and health books and more than 600 newspaper columns and magazine articles translating research into practical recommendations for the public.
Timo Clemens, PhD
Assistant Professor/Universitair docent
Department of International Health
Maastricht University
Duboisdomein 30
6229 GT Maastricht
Postbus 61
6200 MD Maastricht
The Netherlands
Phone: +31-43-38-81971
Email: timo.clemens@maastrichtuniversity.nl

Timo Clemens, PhD is a public health researcher. His focus of work is on European perspectives on the organization and governance of health systems – understanding the process and effects of EU law, EU collaboration and integration in domestic health policy making. Methodologically, this involved comparative and vertical (top-down) analyses of laws (mapping of laws) and policies (policy analysis) that have been supplemented by literature reviews and qualitative interview studies to assess the effects in practice. The thematic research interest has been especially on health policy priorities of the EU such as cross-border care arrangements, rare diseases, health workforce and patients’ rights/patient information. His experience includes involvement in EU funded research projects on comparative health service research questions including patient rights (Tender Pre-MAX, EU-DG SANTE), rare diseases, (EMRaDi, INTERREG) and small states healthcare systems (SMSHealth.eu, EU-ERASMUS+). Currently, dr. Clemens is working as an assistant professor at the Department of International Health, Faculty of Health, Medicine and Life Sciences at Maastricht University.
Marcin Kautsch, MSc, PhD

Senior Lecturer
Institute of Public Health
Faculty of Health Sciences
Jagiellonian University Medical College
Ul. Skawinska 8
31-066 Kraków
Poland

Email: marcin.kautsch@uj.edu.pl
marcin.kautsch@gmail.com

Marcin Kautsch, MSc, PhD is a lecturer and researcher at the Jagiellonian University Medical College and a project coordinator for Poland of the EcoQUIP Plus “Collaborative Innovation Procurement Action to Improve the Efficiency, Quality and Sustainability of Healthcare”, project funded by the European Commission. In the past, Marcin participated in as many trainings, research, and consultancy programs including, among others, Harvard & Jagiellonian Consortium for Health (healthcare system reform), EPP eHealth, EcoQUIP, LCB Healthcare projects (innovative procurement), LdV Project “Developing European Leadership Through Action-learning in Healthcare”, “RES-Hospitals: towards zero carbon hospitals with renewable energy systems”, “LEPHIE: Leaders for European Public Health project”, and other projects (like COST actions). Marcin has been a non-exec member of hospital boards (currently of the Krakow University Hospital). He was a board member of European Health Management Association. He has extensive research experience and is an editor and author of healthcare management publications. Apart from his academic career, he works as a consultant for health care units and local authorities in the field of public health, healthcare management, and innovative procurement. He also provides training programmes for healthcare managers.
Salman Rawaf, MD, PhD, DCH, MPH, FRCP, FFPH, FFPHMI is the chair of Public Health Medicine, Director of WHO Collaborating Centre in the Department of Primary Care and Public Health at Imperial College London and Honorary Consultant Physician in the NHS. He acquired his qualification in medicine, with training in paediatrics and public health, and spent the breadth of his career in leading roles in the NHS; including 26 years as an Executive Director: County Medical Adviser, Medical Director, District Medical Officer and Director of Public Health. In the latter 23 years of his service in the NHS, he served as the Director of Public Health in South-West London with full responsibility for the health service in and outside the NHS, from which he then moved to Imperial College as Professor of Public Health Medicine, and the Director of the WHO Collaborating Centre for Public Health Education and Training, which supports several WHO Regions and their Member States. Professor Rawaf is a globally recognised for his international work and contribution to global public health, health systems development and primary care in research and service delivery. His work is well documented in supporting countries to strengthen their health systems, service development and medical education. He is an adviser to the World Health Organisation, a Fellow of the Royal Colleges of Physicians London and the UK Faculty of Public Health, and a Member of the Faculty of Public Health Medicine Ireland. He is also involved in many national and international advisory committees. He supported many governments in strengthening their health system through reviews and educational programmes. Professor Rawaf led on development of many educational and research programmes including wide range of training courses on emergency preparedness and emergencies. He published over 300 scientific papers, five books and many international reports and received many awards and recognitions including in 2015 a Life Achievement Award for innovative works in shaping health services, research, and medical education. On Covid-19, he is Member of WHO Technical Advisory Committee; Member of Scientific Advisory Group on Covid-19 Department of Health UAE; Imperial College Covid-19 Group: and Supreme Advisory Group on Covid-19 Iraq; published 4 papers so far on the subject and runs a weekly Webinar and training courses. He is currently the President of the International Association of Medical Colleges.
Farhang Tahzib, MD is a senior public health physician and leader, Founding Chair of the UK Faculty of Public Health Ethics Committee, a fellow and member of the Faculty Board, and previously an Executive Director of Public Health. He studied Psychology and Medicine at the University of Aberdeen in Scotland (UK) and has training and experience in public health, obstetrics and gynecology, tropical medicine, pharmacology, health economics, and operational research. He has worked internationally and was previously a senior research fellow and principal investigator of various programs, particularly around maternal health, prevention of maternal mortality and morbidity, and traditional health care delivery system and primary care, funded by WHO, Carnegie Corporation, UNDP, World Bank, and others.

Sunday, June 12, 2022

The bus ride from the airport to Schloss Arenberg was like a mini sightseeing tour through Salzburg: we drove by old buildings and statues, next to the city mountain and the Salzach river. Arrival to Schloss Arenberg felt straight out of a movie. After some time to freshen up, it was time for the welcome reception and dinner. The faculty members were still in their meeting, which gave fellows the opportunity to get acquainted with each other. It was only then that I realized that many of the fellows have attended OMI seminars in the past. Despite being the ‘new kid’ and one of the few non-clinical fellows, everyone made sure that I felt welcome and part of the group.

Monday, June 13, 2022

The week kicked-off with a short welcome by Mr. Scott Burris and Dr. Kasia Czabanowska, as well as a baseline measurement of our self-reported knowledge in public health law and policy. The self-assessment was followed by a variety of lectures about public health law, evidence and infrastructure, and a stepwise approach to policies and ethics. In the afternoon, we started with our group sessions. I was part of the ‘Covid-19 group’. Within our group, we discussed different approaches to the pandemic. Despite the many differences between our countries, we found common ground in what could have gone (and been done) better. Later in the afternoon, we went to the city center to explore the town and do some shopping before heading back to the Schloss for dinner. Afterwards, some people went for drinks either in the city or in the lobby.
Tuesday, June 14, 2022

Our second day started with lectures about policy frameworks and public health services/functions. Right before the coffee break, each group was introduced to the ‘disruption’ of their original policy proposal. Our group mentor, Kasia, arranged for us to talk to Dr. Salman Rawaf. It was interesting to hear his perspective on covid control and what could have been done better during the first waves of the pandemic. The rest of the day was spent in our groups to figure out how to best deal with our assigned disruptions. A nice reward was waiting after a long day of working: the sun was shining. Time to go for a walk, experience the city, and unwind!

Wednesday, June 15, 2022

Wednesday started with lectures about stakeholder management, followed by politics and procurement. As a health promotion researcher and health economist, I was so excited to learn more about these topics, and the lecturers did not disappoint. Afterwards, there was another hour for group work (including a new disruption) and…. a free afternoon! Together with three fellows, we went to see the Eagles Nest in the Alps and to pay a visit to the Königssee. After a day filled with interesting lectures, nature, and soaking up the sun, I can definitely say that Wednesday has been my favorite day so far!

Thursday, June 16, 2022

Today was the final day to work on our project. We had a few lectures but spent most of our time preparing the presentation for tomorrow, adding the last details to our policy proposal, and deciding who would present from our group. Our hard work was rewarded with a chamber music concert by the Salzburger Klavierquartett. After the concert was finished, we all (faculty and fellows) had some drinks together. Around 11 PM, I went back to my room in order to start the last day of the seminar well-rested.

Friday, June 17, 2022

Today is the final day! Every group presented their case study and proposed a law/policy solution. It was really interesting to see how every group tackled it differently. After the presentations, we had some free time before the last dinner. It's a bit bittersweet, I feel the satisfaction of having finished our group work and excited to bring the knowledge I learned back home, but at the same time, we have to say our goodbyes. Hopefully we’ll get to see each other again at a seminar, conference, or maybe (ideally) in a joint project. Thank you, both to the OMI and Maastricht University, for the opportunity to join this seminar.
Sunday, June 12, 2022

Travelling can leave you speechless and then turn you into a storyteller. I came by plane from Tirana to Vienna, then took the train to Salzburg. The travel was full of enthusiasm, nervousness, and constant thoughts about possible things that could happen during the trip. I took a taxi to the train station, enjoying the beautiful views of Salzburg, and finally arrived at Schloss Arenberg. The receptionist was so polite, he took care of my documents and accommodation.

Monday, June 13, 2022

Mr. Burris had an excellent presentation about the 5 Essential Public Health Law Services. What made the day very interesting was the group work. We were able to mix with doctors and professionals from a range of disciplines from all over the world. We had to create a policy about "medical marijuana use control". Everybody generated new ideas and new approaches to solving the problem, with creative and dynamic affinity which stimulated reflective thinking among members.
Tuesday, June 14, 2022

Our second day allowed us to broaden the understanding of different cultural perspectives and local policies that affect how public health is seen and used. We had an exchange of ideas, face to face interaction, and a creative and dynamic affinity which stimulated reflective thinking among members.

Wednesday, June 15, 2022

The seminar presented us with the big picture of global health policies. We also engaged in group work which seemed very beneficial to me. The free afternoon surprised me with Salzburg gems, as well as with colorful gardens in the city blooming here in Salzburg. It was a great day!

Thursday, June 16, 2022

Today’s lectures gave us a clear guide about enforcing and defending legal solution examples, along with interesting topics the faculty members provided.

Friday, June 17, 2022

Today was an emotional day. It started with the group presentation and ended with saying farewell to our colleagues. It is always a great pleasure to exchange knowledge, as it is the best way to share power. I am very thankful that I was chosen to attend the seminar, as it will enable me, a more experienced and educational doctor, to return to Albania.
