19:00	20:00	WELCOME RECEPTION & DINNER	DINNER	DINNER	DINNER	DINNER	GRADUATION DINNER Certificates Awarded		
20:00	21:00					<u>20:30 - 21:30</u> CHAMBER MUSIC CONCERT			

Learning Objectives for Participants

At the conclusion of this seminar, the participant should be better able to:

1. Diagnose and manage childhood glomerular diseases including nephrotic syndrome, lupus nephritis, hemolytic uremic syndrome, and Alport syndrome based on clinical practice recommendations.
2. Review management of hypertension, nephrolithiasis and polycystic kidney disease in children.
3. Review causes and consequences of Chronic Kidney Disease in Children including some common and uncommon genetic causes, and indications and outcomes of kidney transplantation.
4. Review disorders of glucose metabolism, including diabetes and hypoglycemia, and discuss the evaluation and treatment of these disorders, including those seen in common genetic conditions.
5. Diagnose and manage disorders of bone and mineral homeostasis, including calcium, phosphorus, and vitamin D.
6. Discuss the evaluation of and treatment of endocrine disorders in both genetic and acquired conditions, including thyroid and adrenal disease, as well as disorders of pituitary dysfunction, including disorders of water metabolism, growth and puberty.

ACCME Accreditation Statement

Children's Hospital of Philadelphia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement

Children's Hospital of Philadelphia designates this live activity for a maximum of **TBD** *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
