Learning Objectives for Participants
At the conclusion of this seminar, the participant should be better able to:

1. Review common infectious presentations, diagnoses, management and treatments.
2. Describe the mechanisms, range, and pharmacokinetics/pharmacodynamics of antibiotics, and the resistance mechanisms associated with them.
3. Recognize the major types of immunodeficiency and the likely infections associated with them.
4. Highlight innovations in use of small molecule inhibitors, targeted immunotherapies, and cellular therapies in stem cell transplantation, solid and liquid tumors.
5. Develop strategies for addressing vaccine hesitancy.
6. Describe the goals and implementation strategies for antibiotic stewardship.
7. Understand the impact of the microbiome on infectious disease.
8. Develop collaborative and global strategies for new implementation for infectious disease tracking, infection control, and intervention.

ACCME Accreditation Statement
Children’s Hospital of Philadelphia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement
Children's Hospital of Philadelphia designates this live activity for a maximum of TBD PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
