**Salzburg ESU/ Weill Cornell Master Class in Urology**

Sunday, July 9 – Saturday, July 15, 2023
Christopher R. Chapple, BSc, MBBS, MD, FRCS (Urol), FEBU, DHC (Course Director)

Honorary Professor
Emeritus Consultant Urological Surgeon
Department of Urology
Sheffield Teaching Hospitals NHS Foundation Trust
Royal Hallamshire Hospital
Glossop Road
Sheffield, S10 2JF
United Kingdom

Phone: +44-114-271-3048
Email: c.r.chapple@sheffield.ac.uk

Christopher R. Chapple, BSc, MBBS, MD, FRCS (Urol), FEBU, DHC is an Emeritus Consultant Urological Surgeon at Sheffield Teaching Hospitals, Honorary Professor at University of Sheffield and Visiting Professor at Sheffield Hallam University. He is particularly interested in the functional reconstruction of the lower urinary tract and the underlying pharmacological control mechanisms and provided an NHS tertiary service in lower urinary tract reconstructive surgery. He trained at the Middlesex Hospital where he completed his doctorate thesis. He continued there and the Institute of Urology in London for his subspecialist training. He was Secretary General of the European Association of Urology 2015-2023, having previously been Chairman of the International Relations Committee, Adjunct Secretary General Responsible for Education, and Director of the European School of Urology. He was the Network Coordinator for the European Reference Network (ERN) for rare urogenital diseases and complex conditions (eUROGEN) from 2016-2019. He was the editor-in-chief of the journal Neurourology & Urodynamics from 2006-2016 and is on the editorial board of several international journals. He is an active member of many urological associations and societies including the British Association of Urological Surgeons, the European Association of Urology, the International Continence Society, the Association of Academic European Urologists and the American Association of Genitourinary Surgeons and has been awarded honorary membership of several national urological associations. He has chaired a number of guidelines initiatives including the NICE GDG on Male LUTS and the ICUD Consultation on Male LUTS. BAUS awarded him the St Peter’s medal 2011, SUFU awarded him the Lifetime Achievement Award in 2015, the International Continence Society made him the inaugural member of their Hall of Fame in 2020 and CAU awarded him the Shlomo Raz medal in 2022. Prof. Chapple has co-authored 850+ articles, comments and letters in peer-reviewed journals, and has written several chapters and books.
Douglas S. Scherr, MD
(Co-Course Director)

Professor of Urology
Clinical Director, Urologic Oncology
Weill Medical College of Cornell University
525 E. 68th St. Starr 900
New York, NY 10021
USA

Phone: +1-212-7465788
Email: dss2001@med.cornell.edu

Douglas S. Scherr, MD is currently a Professor of Urology and Clinical Director of Urologic Oncology at the Weill Medical College of Cornell University. Dr. Scherr began his education at Cornell University where he received a B.A. in Government. Following this, he completed his medical school training at The George Washington University School of Medicine. Dr. Scherr then came to NY to complete his urologic residency at The New York Hospital-Cornell Medical Center. This was followed by a two-year fellowship in urologic oncology at Memorial Sloan Kettering Cancer Center under the tutelage of Dr. Peter Scardino. Dr. Scherr currently focuses his practice on urological malignancies, and in particular, he has developed a busy robotic oncology service in the treatment of clinically localized prostate and bladder cancer. In addition, Dr. Scherr has an active basic science research laboratory in which he focuses on the molecular and genetic basis of prostate cancer.
Roger P. Goldberg, MD, MPH  
Associate Professor  
University of Chicago Medical School  
Director, Division of Urogynecology & Reconstructive Pelvic Surgery  
NorthShore University HealthSystem  
Skokie, IL  
USA  
Phone: +1-847-942-7146  
Email: roger.p.goldberg@gmail.com

Roger P. Goldberg, MD, MPH completed his undergraduate degree at Cornell University, medical degree at Northwestern University, residency at Beth Israel Deaconess / Harvard University, master’s degree at Johns Hopkins University, and fellowship in Urogynecology at Northwestern University. He is Director of the Division of Urogynecology and Female Pelvic Surgery at NorthShore / University of Chicago, and also directs the 3-year board accredited FPMRS training program. Dr. Goldberg has over 80 peer-review scientific articles and book chapters and has authored two books including “Urogynecology for the Primary Care Provider” (Springer, 2006), and “Ever Since I Had My Baby” (Random House, 2003). He has served on the Board of Directors for the American Urogynecology Society (AUGS), and as chair of the Health Care Policy committee, co-director for the AUGS Surgical Master Class, and he co-chairs the AUGS Annual Clinical Course. His division’s research has received awards from major societies including AUGS, IUGA, ICS and SGS; additionally, Dr. Goldberg recently received his institution’s Distinguished Physician award. Dr. Goldberg has a focus in surgical innovation, holds several medical device patents, and has introduced surgical procedures for pelvic organ prolapse that have been adopted and studied worldwide. Most recently, he helped to innovate the first minimally invasive solution for female obstructed defecation, currently the subject of a multi-center NIH trial. Dr. Goldberg has lectured and performed surgery on patients throughout the US and internationally and has led volunteer surgical missions to areas of need including Nepal, India and Honduras. He lives in the Chicago area with his wife, Elena, and four children.
Nicolaas Lumen, MD, PhD, FEBU is a urologist specialized in urogenital reconstruction, urologic trauma and uro-oncology. He graduated with the greatest honour at the faculty of Medicine at the Ghent University (Belgium) in 2002. Thereafter he started his residency in urology. This residency consisted of 2 years General Surgery at the Our Lady Clinic in Waregem (Belgium) and of 4 years of Urology at the Ghent University Hospital, Ghent (Belgium). He followed a 6-month fellowship in robotic surgery at the Our Lady Clinic in Aalst (Belgium) in 2008-2009. He started as member of staff at the department of Urology at the Ghent University Hospital. In 2010, he defended with success his doctoral thesis with topic “optimising treatment of urethral stricture disease”. In 2012 he was appointed as Associate Professor at the Faculty of Medicine and Health Science of the Ghent University. So far, he published 194 PubMed indexed articles in the field of uro-oncology, urogenital reconstruction and uro-trauma. He was scientific secretary of the Belgian Association of Urology from 2016 until 2020. He was promotor of 7 PhD students and is currently promotor of 5 running PhD projects. These projects have been awarded with several scientific grants (1.500.000 €). He was member of the EAU guidelines committee on urogenital trauma from 2011 until 2021 and he was chairman of the EAU Methods Committee from 2021 until 2022. Since 2018, he is the current chairman of the EUA guidelines committee on urethral stricture disease. He is Major in the Medical Component of the Belgian Army and is active as Surgeon in the Role 2B Field Hospital. In 2023, he was sent to Kirikhan (TUR) to aid after the earthquake. He lives in Merelbeke, close to Ghent, with his partner and 3 kids. He loves cycling, running, tennis and skiing. He brews and drinks his own beer.
Francesco Sanguedolce, MD, PhD, FEBU is a Consultant Urological Surgeon with special interest in Prostate Cancer. He was born in Sicily, Italy where he graduated from the Palermo University School of Medicine; he then completed his urological residency at the University Hospital of Bologna. Afterwards, he was awarded as Doctor Europaeus from the PhD in Nephrological and Urological Sciences at University of Bologna. His initial urological interest was focused on endourology, after attending a 2-years fellowship training at Fundació Puigvert, Barcelona-Spain, in this field. He then developed skills in laparoscopy of prostatic and renal diseases, after attending a further 2-years fellowship training at Imperial College, London-UK and King's College, London-UK. After being appointed as a Consultant Urological Surgeon in UK, he then moved back in Fundació Puigvert as a Faculty member of the Uro-Oncology Unit, where he currently works as the expert in prostate cancer. More recently, he has also been appointed as Associate Professor at University of Sassari-Italy, and Chair of the EAU Section in Urological Imaging. As a result, his main fields of research have been endourology-minimally invasive treatments and the imaging in prostate cancer (diagnosis, staging, monitoring, theranostics). He is a peer reviewer for multiple major urological journals and is an associate editor to the Clinical Genitourinary Cancer. He lives in Barcelona, Spain with his partner Emma and child Leonardo.
Zafer Tandogdu, MD is a Consultant Urological Surgeon with special interest in Prostate Cancer. He was born in Sicily, Italy where he graduated from the Palermo University School of Medicine; he then completed his urological residency at the University Hospital of Bologna. Afterwards, he was awarded as Doctor Europaeus from the PhD in Nephrological and Urological Sciences at University of Bologna. His initial urological interest was focused on endourology, after attending a 2-years fellowship training at Fundació Puigvert, Barcelona-Spain, in this field. He then developed skills in laparoscopy of prostatic and renal diseases, after attending a further 2-years fellowship training at Imperial College, London-UK and King’s College, London-UK. After being appointed as a Consultant Urological Surgeon in UK, he then moved back in Fundació Puigvert as a Faculty member of the Uro-Oncology Unit, where he currently works as the expert in prostate cancer. More recently, he has also been appointed as Associate Professor at University of Sassari-Italy, and Chair of the EAU Section in Urological Imaging. As a result, his main fields of research have been endourology-minimally invasive treatments and the imaging in prostate cancer (diagnosis, staging, monitoring, theranostics). He is a peer reviewer for multiple major urological journals and is an associate editor to the Clinical Genitourinary Cancer. He lives in Barcelona, Spain with his partner Emma and child Leonardo.
Alfred C. Winkler, MD received his AB from Princeton University in 1989. He went on to pursue Medicine at SUNY Stony Brook School of Medicine where he was awarded his Medical Doctorate in 1993. He completed his residency at Albert Einstein College of Medicine in 1999. He has been a board-certified Urologist and member of the American Urologic Association since 1999. In 2015, he was awarded a master's in business administration from NYU. Prior to joining Weill Cornell Medicine in 2015, Dr. Winkler held Urology Residency Site Director positions at both the Albert Einstein College of Medicine and Icahn School of Medicine. He was also Chief of Urology at Jacobi Medical Center/North Central Bronx Hospital and subsequently Elmhurst Hospital Center/Queens Hospital Center. He won Resident Teaching awards at both residency programs. He is currently Chief of Urology at NYP-Lower Manhattan Hospital. Dr. Winkler also sees patients and performs operative procedures at WCMC-NYP. Dr. Winkler believes that patient education is essential to the collaborative effort between physician and patient to achieve an optimal outcome. In his practice, he spends the extra time to make certain his patients have a thorough understanding of both their illness and the treatment options available. Dr. Winkler's particular areas of focus are Men's Heath, Stone Disease, as well as voiding Dysfunction in both Men and Women. A particular passion is Community Health Awareness of Urologic Disease. Dr. Winkler has organized numerous educational and screening programs involving prostate cancer awareness and bladder health.

Daniel Oliveira-Reis, MD, FEBU is a urologist who specializes in medical and surgical oncological urology. Dr. Oliveira-Reis grew up in Portugal. He graduated from Universidade da Beira Interior and completed his urology residency at Centro Hospitalar Universitário do Porto, Portugal, where he was chief resident in Urology and for the whole hospital. He performed fellowships in oncology at the Radboud UMC, Nijmegen and in minimally invasive surgery with sponsorship of the Belgian Urology Association. Dr. Oliveira-Reis’ interests include minimally invasive surgery for prostate and bladder cancer, focal therapies in prostate cancer, and medical management of advanced prostate cancer. Recent publications include a review of bladder cancer outcomes in Portuguese hospitals. Dr. Oliveira-Reis is currently in Hospital de Cascais and Hospital Lusíadas Lisboa as Attending Urologist. He is in the European School of Urology as a faculty member in multiple hands-on training programs. He lives in Lisbon with his family.
Tiago Ribeiro de Oliveira, MD, MSc, FEBU (Tutor) is an Assistant Urologist, Fellow of the European Board of Urology, specialized in minimally invasive treatment of prostate cancer, kidney cancer, and urolithiasis. Dr. Oliveira grew up in Portugal, namely in the villages of Sintra and Ericeira, near the Portuguese capital, Lisbon. He joined the Portuguese navy and completed military training in the Portuguese Naval Academy. During the same period, he graduated in Medicine and concluded is master’s degree from the Lisbon Faculty of Medicine. Dr. Oliveira completed is urology residency under the guidance of Dr. Sérgio Pereira at Santa Maria University Hospital in Lisbon, with a fellowship in advanced endoscopic, laparoscopic, and robotic surgery with Dr. Ben Van Cleynenbreugel and Prof. Steven Joniau at KU Leuven in Belgium. Dr. Oliveira’s main research interests are in the field of laparoscopy and endoscopy training. He is a hands-on training tutor of the European School of Urology (ESU), both at the European Association of Urology (EAU) Annual congresses and the European Urology Residents Education Programme (EUREP). Dr. Oliveira is a member of the ESU Boot Camp and Train the Trainer working group and has been involved in the organization of several ESU Boot Camps for first year urology residents. He is also a peer reviewer for multiple urological journals. Dr. Oliveira's clinical and research efforts have earned him several grants and scientific awards, whereas his military activities have earned him several national and international medals and recommendations. Dr. Oliveira is an Assistant Urologist in Santa Maria University Hospital (Lisbon), and is currently Head of the Urology Department of the Armed Forces Hospital (Lisbon). He lives in Lisbon with his wife, Maria Ana, and their children, Manuel and Pilar.

Faculty Feedback

"The nearly 30-year collaboration between the European School of Urology (ESU) and the OMI provides an important educational opportunity by supporting young urologists from across Europe and beyond, which represents an integral part of the education provided by the ESU. The OMI seminar includes state-of-the-art lectures and discussions of fellows’ case presentations. This is a unique opportunity for fellows to discuss many aspects of urology, providing extensive chances to network with the expert international faculty and colleagues from many countries with diverse health care challenges and systems."

Christopher R. Chapple, MD
Urology
I can look back at the week and recognize how enlightening this seminar was, not only concerning theoretical knowledge, but also the people we met, with different backgrounds, cultures, and experiences. Having experts listen to our clinical cases and provide input surely represented one of the highlights of this masterclass.

Andrea Bile-Silva, MD
OMI Fellow from Portugal

The laparoscopic hands-on training was very interesting, and I learned some new tricks that I will implement in my practice.

Ionnas Sakellarios, MD
OMI Fellow from Greece
The faculty were very experienced yet easily approachable and always willing to offer advice and words of wisdom. I feel armed with a fortified armamentarium as I set off with new academic and clinical ideas to explore. This seminar was a great learning and networking opportunity.

Jecima Chibusa, MD
OMI Fellow from Nigeria

Dr. Tandogdu and Dr. Winkler guided us on the proper diagnosis and treatment of urinary tract infections and antibiotic resistance. This is a very important topic in my country since we have a very high prevalence of antimicrobial resistant urinary tract infections (up to 70% in some cases).

Juan Manuel Córdova López, MD
OMI Fellow from Mexico
