John W. Ragsdale III, MD
(Course Director)

Division Chief
Duke University Medical Center
Department of Community and Family Medicine
Associate Professor
Vice Chair Clinical Services
Duke Family Medicine
2100 Erwin Road
Durham, NC 27710
USA

Phone: +1-919-684-6721
Email: john.ragsdale@duke.edu

John W. Ragsdale III, MD is Chief of the Division of Family Medicine in the Department of Family Medicine and Community Health since 2017. Prior, he served as Medical Director from 2012-2017 and has maintained a clinical practice in the Department of Family Medicine since 2009. Prior to Duke, he completed a leadership fellowship at Brown University in Providence Rhode Island. He attended Medical School at the Medical College of Georgia and subsequently completed his residency at Georgetown University Family Medicine program. His clinical and research interests have focused on cancer survivorship, specifically with urological cancers and maintains a clinical practice in survivorship at the Duke Cancer Institute. He also has a long-standing interest in women's health, leadership, and medical education as he has been an active member for the Family Medicine Residency Program as core faculty since 2009. His wife and three children live in Chapel Hill, North Carolina.
Kathryn Hoffmann, MD, MPH is a University Professor and Head of the Department for Primary Care Medicine, Center for Public Health at the Medical University of Vienna. Additionally, she is a General Practitioner with ÖÄK-diploma in psychosocial and psychosomatic medicine working in a long-covid outpatient department and is a public health scientist. She is one of the leading researchers for Health Services Research in Primary Care in Austria, project manager for (EC-funded) research projects, which focus on quality, access points, and structure of Primary Care Systems worldwide, and authored many top-journal publications and book chapters. In 2017, she received the “venia docendi” in general practice and family medicine. Dr. Hoffmann’s research and teaching focuses are on primary health care concepts, family medicine, health services and systems research, as well as long-covid and post-covid syndromes. Since research in this area is highly complex, she is experienced in qualitative, quantitative, as well as mixed-method approaches. She is the Austrian representative of the European General Practice Research Network, former advisory board member of the European Forum for Primary Care as well as executive board member of the Austrian Society for General Practitioners.
William Bynum, MD

William Bynum, MD is a family medicine physician, medical educator, and health professions education researcher at the Duke University School of Medicine. Will grew up in North and South Carolina, USA, obtained his Bachelor of Science from the University of North Carolina at Chapel Hill in 2005, and matriculated into the University of South Carolina School of Medicine (USC SOM) in August 2006. After graduating USC SOM in 2010, Will began his Family Medicine Residency training through the US Air Force at the National Capital Consortium (NCC) Family Medicine Residency at Fort Belvoir, Virginia. Upon his residency graduation in June 2013, Will assumed a position on the Core Faculty of the NCC Family Medicine residency where he trained. In addition to practicing and teaching full spectrum Family Medicine, including inpatient medicine and obstetrics, Will served as the Medical Student Clerkship Coordinator, supported multiple overseas US Congressional delegations as the trip physician, and deployed to East Africa as the medical director of a regional special operations command. In 2017, Will joined the Duke Family Medicine Residency Program as core faculty and then Associate Residency Program Director. In 2020, Will became the Residency Program Director (a position he holds today) and led the program through a curricular overhaul, the launch of inpatient and newborn nursery services, the strife following George Floyd’s murder and the 2020 US election, and the Covid-19 pandemic. He practices and teaches outpatient family medicine and inpatient newborn at Duke. In addition to his clinical and educational roles, Will is completing a PhD in Health Professions Education at Maastricht University, where, on February 15, 2023, he will defend his thesis entitled: Out of the Shadows: A Qualitative Exploration of Shame in Learners Across the Continuum of Medical Education.
Cerrone A. Cohen, MD
Assistant Professor in Family Medicine and Psychiatry
Duke University
Duke Family Medicine
Box 3886 DUMC
Durham, NC 27710
USA

Phone: +1-919-684-6721
Fax: +1-919-668-1785
Email: Cerrone.Cohen@duke.edu

Cerrone A. Cohen, MD currently serves as a faculty member in both the department of Community and Family Medicine and the department of Psychiatry and Behavioral Sciences at Duke University. In his shared role, he provides both primary care and mental health services in the outpatient setting. He also is a member of the Duke Primary Care collaborative care team, where he assists primary care providers in initiating and monitoring treatments for depression and anxiety. Dr. Cohen is also passionate about medical education and has lectured on both national and international stages. He currently serves as the Director of the psychiatry clerkship within the Duke School of Medicine, and he is an assistant director of the Duke Masters of Biomedical Sciences Program. Prior to coming to Duke, Dr. Cohen completed a combined residency in family medicine and psychiatry at the University of California Davis, where he served as chief resident in his final year. He holds a doctorate in medicine from the Medical University of South Carolina and a Bachelor of Science in Human Sciences from Florida State University. Dr. Cohen is a diplomate of the American Board of Family Medicine and the American Board of Psychiatry and Neurology.

Email: maria.gomezpellin@meduniwien.ac.at

Maria de la Cruz Gomez Pellin, MD is a public health resident physician at the Unit Health Services Research in Primary Care of the Department of Social- and Preventive Medicine at the Medical University of Vienna. Additionally, she is one of the co-founders of the Primary Health Care Center Sonnwendviertel and works there as a family medicine doctor specialized in emergency medicine, preventive cardiovascular medicine, geriatrics, palliative medicine, school health, and street and addiction medicine. She has conducted several research projects on topics concerning the quality of postgraduate general practice training, telemedicine, and potentially inadequate medications in the elderly. Dr Gomez's research and teaching focuses are on primary health care, family medicine, evidence-based medicine, as well as public health.
Kenneth Herring, MD is a family physician, educator, and advocate for healthy communities. Dr. Herring completed his undergraduate studies at Clemson University in Clemson, South Carolina before graduating from the University of North Carolina School of Medicine in Chapel Hill. He completed his family medicine residency training at the University of Colorado in Denver. In 2020, he joined the faculty at the Duke University Family Medicine Residency program in Durham, North Carolina, where he now serves as the Associate Program Director. Clinically, he provides comprehensive preventative medicine, behavioral health, and acute care needs for patients of all ages. As the Associate Program Director of the Duke Family Medicine Residency, he oversees the educational curriculum and serves in both advisory and educational roles. He is passionate about educating and training the best family medicine physicians to serve the community’s needs. He currently serves as an editor for the Family Physician Inquiry Network and works with Duke Family Medicine trainees on developing Evidence-Based Medicine, critical appraisal, and writing skills. He has also partnered with the American Board of Family Medicine to pilot a national journal club to promote the principles of evidence-based medicine and critical appraisal.
Anthony J. Viera, MD, MPH

Professor and Chair
Department of Family Medicine and Community Health
Professor of Population Health Sciences
Duke University
Adjunct Professor of Epidemiology
University of North Carolina at Chapel Hill
2200 West Main Street
Suite 400
Durham, NC 27705
USA

Phone: +1-919-681-6150
Email: anthony.viera@duke.edu

Anthony J. Viera, MD, MPH received his medical degree from the Medical University of South Carolina and his Master of Public Health from the Gillings School of Global Public Health at the University of North Carolina at Chapel Hill. He completed his family medicine residency at Naval Hospital Jacksonville and served as a family physician in the Navy for an additional five years prior to a two-year fellowship as a Robert Wood Johnson Clinical Scholar at the University of North Carolina (UNC) at Chapel Hill. Before embarking in 2017 on his service as Chair in the Department of Family Medicine and Community Health at Duke University School of Medicine, Dr. Viera was a faculty member for 13 years in the UNC Chapel Hill Department of Family Medicine. While at UNC, he was also a faculty member in the Gillings School of Global Public Health and directed the UNC MD-MPH Program. He has over 300 peer-reviewed publications, has been the awardee of over $24 million in federal and foundation funding, and has been honored with multiple teaching awards. His research focuses on cardiovascular disease prevention and hypertension. Dr. Viera is recognized as a Fellow of the American Heart Association. He is co-editor of several textbooks, including Management and Leadership Skills for Medical Faculty, now in its second edition. At his heart, though, he’s just a simple country doctor.

"The Duke Family Medicine group has been a long-standing friend and supporter of OMI. We share in their vision to expand the knowledge of family medicine and learn from an international group of like-minded scholars, teachers and clinicians."

John W. Ragsdale III, MD
Family Medicine
"Shame in Medicine" was the most impactful lecture for me. Shame is simple yet so complex at the same time, and it can significantly impact decision making and quality of healthcare. Realizing that someone has been researching this topic made me feel understood. It was great to share our experiences with each other.

Katinka Friede, MD
OMI Fellow from Latvia

"During the “Motivational Interviewing” workshop, I learned how to change patients’ habits through the behavioral intervention method.

Alanbayer Tserendoju, MD
OMI Fellow from Mongolia

The workshop on shame engagement taught us how to identify shame in medicine, overcome it, and help others do the same through open discussions. The teaching methods used by Dr. Bynum and Dr. Cohen were unique and are rarely used in my country.

Minh Duy Lu, MD
OMI Fellow from Vietnam
