John W. Barnhill, MD has served as psychiatric course director for the OMI Salzburg Seminars since 2015. He is a consultation-liaison psychiatrist and psychoanalyst at Weill Cornell Medicine (WCM), where he is DeWitt Wallace Senior Scholar and Professor of Clinical Psychiatry. At New York Presbyterian Hospital/Weill Cornell Medicine (NYP/WCM), he has served as chief of the inpatient consultation teaching service and has directed consultation programs for physician trainees and for potential recipients of heart and kidney transplants. He is affiliated with the Columbia University College of Physicians and Surgeons, where he chairs the Ethics Committee within the psychoanalytic center and is an Adjunct Clinical Professor of Psychiatry. Dr. Barnhill is also chief of psychiatry at the Hospital for Special Surgery, where he works primarily with patients with lupus and with orthopedic issues. Internationally, he has taught and done clinical consultations in Africa, Asia, and the Middle East. Dr. Barnhill has written and edited multiple psychiatric textbooks, including DSM-5-TR Clinical Cases (published in 2023), the Approach to the Psychiatric Patient, 2nd edition (pub. in 2019); and Co-Occurring Mental Illness and Substance Use Disorders (pub. in 2018, with Dr. Jonathan Avery).
W. Wolfgang Fleischhacker, MD
(Co-Course Director)

President
Medical University of Innsbruck
Christoph-Probst-Platz 1
6020 Innsbruck
Austria

Phone: +43-512-9003-70001
Email: wolfgang.fleischhacker@i-med.ac.at

W. Wolfgang Fleischhacker, MD is the President of the Medical University Innsbruck in Austria, in which he previously served as Professor and Managing Director in the Department of Psychiatry, Psychotherapy and Psychosomatics. He is a certified psychiatrist and psychotherapist. Currently he is also a Clinical Professor of Psychiatry (Courtesy) at Weill Cornell Medicine in New York. After receiving his medical degree from Innsbruck University, Dr. Fleischhacker trained at the Departments of Psychiatry and Neurology of the Medical Faculty there. In 1987 he was awarded a Fulbright Scholarship and spent 18 months at Hillside Hospital in New York. Dr. Fleischhacker's main research interests relate to schizophrenia and psychopharmacology, documented in more than 400 publications. These efforts have led to participation in World Health Organization and World Psychiatric Association programs focusing on schizophrenia. He was also a member of the scientific committee of the Austrian Agency for Health and Food Safety and has served as a consultant for the European Medicines Agency. Memberships: Chairman of the European Group for Research in Schizophrenia, Fellow of the International College of Neuropsychopharmacology; Fellow of the American College of Neuropsychopharmacology, Fellow of the European College of Neuropsychopharmacology. He is also a member of the Schizophrenia International Research Society, Austrian Society of Psychiatry (senior president) and Psychotherapy, and the Austrian Schizophrenia Society. He also serves as the chair of the Scientific Advisory Board of the Open Medical Institute.

Jonathan Avery, MD is the Vice Chair for Addiction Psychiatry, the Stephen P. Tobin and Dr. Arnold M. Cooper Associate Professor in Consultation-Liaison Psychiatry, and the Program Director for the Addiction Psychiatry Fellowship. Dr. Jonathan Avery is a graduate of the New York University School of Medicine. He completed his residency training at New York-Presbyterian Hospital/Payne Whitney Clinic. During residency, he was selected as a Group for the Advancement of Psychiatry Fellow and won several awards for his clinical and academic work. He was co-chief resident in his final year of training. Prior to employment on the Cornell faculty, Dr. Avery completed an addiction psychiatry fellowship at the New York University School of Medicine. Dr. Avery has been published on a broad variety of topics in addiction psychiatry, including papers on subjects ranging from clinician attitudes towards patients to how to use buprenorphine. He is the founder of the Weill Cornell/New York-Presbyterian Program for Substance Use and Stigma of Addiction, and his research on stigma is supported by several national grants and awards. He was on the editorial board for the DSM-5 Clinical Cases book and is the editor/author of 10 books, including Co-occurring Mental Illness and Substance Use Disorders: A Guide to Diagnosis and Treatment and The Stigma of Addiction: An Essential Guide. He has won numerous awards for his clinical and academic work, including the American Board of Psychiatry and Neurology Faculty Innovation in Education Award and the Outstanding Faculty Member Award from the New York County Psychiatric Society.
Anna Buchheim, PhD

Chair for Clinical Psychology II
Institute of Psychology
University of Innsbruck
Universitätsstrasse 5-7
6020 Innsbruck
Austria

Phone: +43-512-507-56005
Fax: +43-512-507-56199
Email: anna.buchheim@uibk.ac.at

Anna Buchheim, PhD is a licensed psychologist and psychoanalyst (IPA), who is specialized in attachment research, psychotherapy research, psychoanalysis, and neuroimaging. Dr. Buchheim grew up in the South of Germany and completed her Diploma in Psychology at the University of Regensburg. She graduated as a research assistant at the Department of Psychosomatic Medicine and Psychotherapy at the University of Ulm. There she completed her Dissertation, Habilitation (Privatdozent) and Psychoanalytic Training. In 2008, she became a Full Professor for Clinical Psychology at the University of Innsbruck. She is a full member of the International Psychoanalytic Association and Transference-Focused Psychotherapy Institute in Munich and Member of the International Society of Transference Focused Psychotherapy. Dr. Buchheim is the vice-president of the German Society for Personality Disorders and Guest Professor at the International Psychoanalytic University Berlin. Dr. Buchheims research interests are psychotherapy research, attachment development and psychopathology, change of attachment representations during psychotherapy. Moreover, she is interested in neural correlates of attachment in several psychological disorders. Recently, she conducted a study on neural changes in depressed patients during psychoanalytic psychotherapy and won the 2013 Paper Prize from the American Psychoanalytic Association in New York. She is co-editor of the German Journal of Personality Disorders: Theory and Practice and in the editorial board of several journals (Psychopathology, Clinical Psychology & Psychotherapy: An International Journal of Theory and Practice, Forum Psychoanalyse, Psychodynamische Psychotherapie, forum Psychotherapie). Dr. Buchheim is the Chair for Clinical Psychology at the Institute of Psychology University Innsbruck since 2008. She was Dean of the Faculty 2017-2020 and the Vice Rector for Human Resources at the University of Innsbruck 2020-2023.
Richard A. Friedman, MD is a Professor of Clinical Psychiatry at Weill Cornell Medicine and the Director of the Psychopharmacology Clinic in the Department of Psychiatry. Dr. Friedman has a particular interest and expertise in the psychopharmacology and neurobiology of mood disorders, and in particular, treatment-resistant depression. Recently, he has done research in the military’s use of various psychotropic medications in active-duty troops during the Iraq and Afghanistan wars and is now extending this research to the veteran population. Dr. Friedman is actively involved in teaching and training psychiatric residents and is Director of Student Mental Health at Weill Cornell Medicine. He has also done research in depressive disorders, including studies of new medications for depression and a large collaborative study of the genetics and neurobiology of bipolar disorder. Dr. Friedman has authored publications in the New England Journal of Medicine the Journal of the American Medical Association, the American Journal of Psychiatry, among others. He is also a contributing Op-Ed writer at the New York Times and contributes to the Atlantic and the New York review of books where he writes on mental health, addiction, human behavior, and neuroscience.
Alison Hermann, MD is a psychiatrist who specializes in women’s reproductive health. Dr. Hermann grew up in the Midwest region of the United States in the state of Ohio and completed her undergraduate studies in Psychobiology at The Ohio State University in Columbus, Ohio. She graduated from the State University of New York Health Sciences Center, Brooklyn with distinction in Neuroscience and completed her General Psychiatry residency at Columbia University Medical Center-New York State Psychiatric Institute, where she was chief resident. Her fellowship training in Women’s Mental Health was at Columbia University Medical Center with Dr. Elizabeth Fitelson. Dr. Hermann is currently the Clinical Director of the Women’s Mental Health Program at Weill Cornell Medicine. In this role, Dr. Hermann has substantially expanded psychiatric services for perinatal women as well as educational offerings in reproductive mental health for clinicians and trainees at multiple levels. Dr. Hermann’s research interests include developing a machine-learning risk prediction algorithm and shared clinical decision-making tool for postpartum depression, developing an ecological momentary assessment tool for monitoring symptoms across periods of hormonal flux such as menstruation or pregnancy and lactation, and delivering app-based psychotherapy interventions for postpartum mood and anxiety disorders. Dr. Hermann is currently on the faculty of Weill Cornell Medical College and New York-Presbyterian Hospital as Associate Professor in Clinical Psychiatry. She lives in New York City with her husband, Aaron, and son, Lev.

"One goal of the Salzburg/OMI Seminars in Psychiatry is to help educate future leaders in psychiatry. Other goals are at least as important: to develop camaraderie among psychiatrists from many countries; to discuss methods and approaches to mental health care; and to encourage the development of cutting-edge psychiatric knowledge while maintaining a humanistic approach to patients."

John W. Barnhill, MD
Psychiatry
OMI VOICES

"This seminar was unique and very different from the workshops and courses I have attended so far. I learned a lot, expanded my network, and exchanged experiences with colleagues working in different corners of the world."

Tomasz Gorski, MD
OMI Fellow from Poland

"We had a fruitful discussion about treatment resistant schizophrenia with Dr. Fleischhacker in the gardens of Schloss Arenberg. This very different, informal setting allowed for open discussion and interaction."

Keeva Bruna, MD
OMI Fellow from Latvia

"The workshop on attachment theory by Dr. Buchheim was today's highlight. What an immersive experience! We had a great discussion, and Dr. Buchheim was very inspiring."

Olga Lisov, MD
OMI Fellow from Czech Republic
