20:00	21:00					20:30 - 21:30 CHAMBER MUSIC CONCERT		

Learning Objectives for Participants

At the conclusion of this seminar, the participant should be better able to:

1. Describe the embryologic development of the genitourinary tract and how this impacts different disease processes.
2. Develop an understanding of how to use imaging and examination findings to generate an appropriate urologic history.
3. Recognize the abnormalities of the urinary tract, potential surgical intervention, and long term management.
4. Describe surgical procedures for various genitourinary anomalies.
5. Recognize significant genitourinary anomalies in children, particularly those that pose significant risk to kidney function and overall morbidity.

Accreditation

In support of improving patient care, this activity has been planned and implemented by the Children's Hospital of Philadelphia. The Children's Hospital of Philadelphia is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Designation of Credit

Physicians: Children's Hospital of Philadelphia designates this live activity for a maximum of 28 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
